Available upon request

## skills

### Web Design & Front-End Foundations

- Designed and built UI components using HTML, CSS, and JavaScript, translating Figma layouts into functional interfaces
- Applied UI and layout principles to create clear hierarchy, spacing, and consistency in responsive designs

### Content Management & Web Platforms

- Developed and customized WordPress themes using the WordPress API (template hierarchy, the loop, template tags)
- Structured and managed website content for clarity and accessibility

### Research, Testing & Quality Control

- Verified accuracy and relevance of digital content through web-based research and evaluation
- Followed detailed guidelines and standards to maintain consistency and quality

### Workflow & Collaboration

- Collaborated on group project using GitHub for version control and shared development workflows
- Worked independently with strong attention to detail in structured, accuracy-focused environments
